Further Legislative Measures in Italy

Developments Affecting RES-E Stakeholders in Late 2005 and Early 2006

Claudio Andrea Casale, CESI RICERCA S.p.A.

A number of noteworthy legislative measures affecting RES-E deployment were taken in Italy in late 2005 and the first months of 2006 as well. These measures actually brought some new features into Italy's RES-E support system, which were worth being considered as they somehow altered the framework RES-E stakeholders had to deal with. Consequently something new was also likely to be found in respect of RES-E stakeholders' views and perceptions as they had been gathered through the year 2005 and described in the Country Report already submitted.

Briefly speaking, the most outstanding aspects were:

- Two Ministerial Decrees issued on 24th October 2005 providing some new rules on Tradable Green Certificates (TGC) (these Decrees were already mentioned in the Country Report).
- Two Provisions issued by AEEG (Regulatory Authority for Electricity and Gas) concerning gridconnection of RES-E plant (No. 281 of 19th December 2005) and energy exchange between the network and RES-E plant not exceeding 20 kW (No. 28th of 10th February 2006).
- A new Ministerial Decree of 6th February 2006 modifying the former Decree of July 2005 that granted feed-in tariffs to the energy produced by photovoltaic plant (among others, much higher ceilings were set to overall capacity of funded projects after the unexpected surge of bids that followed the former Decree).
- A Legislative Decree (No. 152 of 3rd April 2006) on environmental matters which (among others) also included a major provision bearing upon RES-E investors, namely the extension of the TGC availability term from 8 years to 12 years since the start of plant operation.
- A Ministerial Decree of 6th May 2006 specifying the kinds of waste and RDF (Refuse Derived Fuel) admitted to get TGC in accordance with Art. 17 of Decree No. 387 of 29th December 2003.

Some of the above-mentioned provisions had long been awaited as they were required for implementing Decree No. 387 of 29th December 2003 (transposing Directive 2001/77/EC), whilst others, like the extension of the TGC term, were on the contrary rather unexpected.
