

## Palaeogeography, Palaeoclimatology, Palaeoecology

### Special Issue: From Snowball Earth to the Cambrian bioradiation: calibration of Ediacaran-Cambrian history in South China

Edited by Maoyan Zhu, Harald Strauss and Graham A. Shields  
Volume 254, Issues 1-2, p. 1-362 (8 Oct. 2007)

From snowball earth to the Cambrian bioradiation: Calibration of Ediacaran–Cambrian earth history in South China

Pages 1-6

*Maoyan Zhu, Harald Strauss and Graham A. Shields*

Research Papers

Integrated Ediacaran (Sinian) chronostratigraphy of South China

Pages 7-61

*Maoyan Zhu, Junming Zhang and Aihua Yang*

Cambrian chronostratigraphy: Current state and future plans

Pages 62-66

*Loren E. Babcock and Shanchi Peng*

Neoproterozoic to Early Cambrian small shelly fossil assemblages and a revised biostratigraphic correlation of the Yangtze Platform (China)

Pages 67-99

*Michael Steiner, Guoxiang Li, Yi Qian, Maoyan Zhu and Bernd-Dietrich Erdtmann*

Sedimentology and environmental significance of the Cryogenian successions of the Yangtze platform, South China block

Pages 100-122

*Nicole Dobrzinski and Heinrich Bahlburg*

Stratigraphic reconstruction of the Ediacaran Yangtze platform margin (Hunan province, China) using a large olistolith

Pages 123-139

*E. Vernhet, C. Heubeck, M.-Y. Zhu and J.-M. Zhang*

Carbon isotopic evolution of the terminal Neoproterozoic and early Cambrian: Evidence from the Yangtze Platform, South China

Pages 140-157

*Qingjun Guo, Harald Strauss, Congqiang Liu, Tatiana Goldberg, Maoyan Zhu, Daohui Pi, Christoph Heubeck, Elodie Vernhet, Xinglian Yang and Pingqing Fu*

Carbon isotope variation through the Neoproterozoic Doushantuo and Dengying Formations, South China: Implications for chemostratigraphy and paleoenvironmental change

Pages 158-174

*Hong-Fei Ling, Hong-Zhen Feng, Jia-Yong Pan, Shao-Yong Jiang, Yong-Quan Chen and Xi Chen*

Reconstructing marine redox conditions for the Early Cambrian Yangtze Platform: Evidence from biogenic sulphur and organic carbon isotopes

Pages 175-193

*Tatiana Goldberg, Harald Strauss, Qingjun Guo and Congqiang Liu*

Trace element chemostratigraphy of two Ediacaran–Cambrian successions in South China: Implications for organosedimentary metal enrichment and silicification in the Early Cambrian

Pages 194-216

*Qingjun Guo, Graham A. Shields, Congqiang Liu, Harald Strauss, Maoyan Zhu, Daohui Pi, Tatiana Goldberg and Xinglian Yang*

Extreme enrichment of polymetallic Ni–Mo–PGE–Au in Lower Cambrian black shales of South China: An Os isotope and PGE geochemical investigation

Pages 217-228

*Shao-Yong Jiang, Jing-Hong Yang, Hong-Fei Ling, Yong-Quan Chen, Hong-Zhen Feng, Kui-Dong Zhao and Pei Ni*

Early Cambrian metazoan fossil record of South China: Generic diversity and radiation patterns

Pages 229-249

*Guoxiang Li, Michael Steiner, Xuejian Zhu, Aihua Yang, Haifeng Wang and Bernd D. Erdtmann*

Early Cambrian Yangtze Plate Maotianshan Shale macrofauna biodiversity and the evolution of predation

Pages 250-272

*Junyuan Chen, Dieter Waloszek, Andreas Maas, Andreas Braun, Diying Huang, Xiuqiang Wang and Martin Stein*

Evolution of cephalic feeding structures and the phylogeny of Arthropoda

Pages 273-287

*Dieter Waloszek, Andreas Maas, Junyuan Chen and Martin Stein*

Maotianshan-Shale nemathelminths — Morphology, biology, and the phylogeny of Nemathelminthes

Pages 288-306

*Andreas Maas, Diying Huang, Junyuan Chen, Dieter Waloszek and Andreas Braun*

Diverse pelagic predators from the Chengjiang Lagerstätte and the establishment of modern-style pelagic ecosystems in the early Cambrian

Pages 307-316

*Shixue Hu, Michael Steiner, Maoyan Zhu, Bernd-Dietrich Erdtmann, Huilin Luo, Liangzhong Chen and Bernd Weber*

Early Cambrian eocrinoids from Guizhou Province, South China

Pages 317-327

*Yuanlong Zhao, Ronald L. Parsley and Jin Peng*

Precambrian–Cambrian trace fossils from the Yangtze Platform (South China) and the early evolution of bilaterian lifestyles

Pages 328-349

*B. Weber, M. Steiner and M.-Y. Zhu*

Radiation of Meso-Neoproterozoic and Early Cambrian protists inferred from the microfossil record of China

Pages 350-361

*Yin Leiming and Yuan Xunlai*
