

**Corrections to 'The solar dynamo', *Astron. and Astrophys. Rev* 11, 287–367**

Corrections indicated in **green**.

p. 305 (8)  $\frac{\partial \mathbf{B}_0}{\partial t} = \mathcal{D}_0 \mathbf{B}_0 + \nabla \times \mathcal{E}$

p. 308 (17)  $\beta \circ \text{curl } \mathbf{B}_0 = -\beta_1 \text{curl } \mathbf{B}_0 + \dots$

p. 356 bottom add: **T.L. Duvall, L.G. Gizon: *Sol. Phys.* 192, 177 (2000)**

p. 366 top add: **J.-C. Thelen, F. Cattaneo: *Monthly Not. Roy. Astron. Soc.* 315, L13 (2000)**
