

Announcement of the Course 21311 V/Ü (2+2):

Quantum chemistry (no lecture, only tutorials and exam)

Preliminary Meeting: **Wednesday, 23.04.2014 12.15 h, SR 24.16 (Takustr. 3)**

Aim of the course:

The offer is aimed for master students which has already attended the quantum chemistry lecture and have not passed it.

Especially for the students in the old master program, where the quantum chemistry course (21311) is obligatory.

There will be no lecture, but a script will be provided.

There will be a tutor, who helps with the tutorials and preparation for the exam.

Dates for the exam will be fixed in the preliminary meeting.
