
Summer Term 2015

Announcement of a lecture (21353a, 2 hrs / week) with exercises (21353b, 2 hrs / week)

Introduction to Relativistic Quantum Chemistry

- Topics:**
- Elements of Classical Mechanics
 - Elements of Electromagnetism
 - Special Relativity
 - Quantization and Spin
 - Dirac Equation
 - One- and Many-Electron Systems
 - Methods in Relativistic Quantum Chemistry
 - Effective Core Potentials
 - ...

Dates & Times:

Preparatory meeting: Monday, 13 April 2015, 16:00, SR 25.01 Takustr. 3

- Credit points: 5 (Master Programme in Chemistry)
